

Sinol-M™ “All Natural” Nasal Spray

Directions for kids use (allergy/sinus ages 4–11)

Shake well before using

The first time you use the pump spray you may have to “prime” it by squirting a few times into the air until a fine mist comes out.

Hold the pump bottle with your thumb at the bottom and your index and middle fingers on top. Insert applicator tip into your child’s nose just so the spray will go inside the nasal cavity. **DO NOT INSERT APPLICATOR UP INTO THE CHILD’S NOSTRIL.**

Squeeze the pump so it sprays in each nostril. Some excess may come out and gently wipe away. If you are using more than one spray in each nostril, follow all of these steps again. Sinol may be used up to 8 times per day.

Sinol products are carefully formulated to be safe, gentle and effective to support the health and well-being of your child.

Sinol-M will drain the sinuses while keeping the bacteria and infection free. A daily regimen of Sinol-M will keep you child breathing clearly and easily each and every day.

Uses

Sinol’s Allergy & Sinus Kids formula works quickly to provide temporary relief of nasal congestion, sneezing, runny nose and headaches due to:

- Indoor and Outdoor allergies
- Hay fever
- Upper respiratory allergies
- Pet Allergies
- Use in the morning, during the day and before bed as needed.

Recommended Ages 4-11.

Dosage 1 spray in each nostril up to 8 times a day.
